

BONAR LAW BRINGS AID TO PREMIER IN IRISH SETTLEMENT

Unionist Leader Will Exert
Pressure on Extremists
if Necessary.

OUTLOOK IMPROVES.

Ulster Parliament Members
Offer No Opposition to
Peace Plan.

LONDON, Nov. 4.—Bonar Law, one of the most prominent members of the Unionist Party and former Government leader in the House of Commons, conferred with Prime Minister Lloyd George last night and is taking a hand in the effort to reach a settlement of the Irish question. The Daily Mail, in discussing Mr. Bonar Law's interview with Mr. Lloyd George, said today that he would, if necessary, bring independent influence to bear upon the Extreme Unionists, with the view to achieving a complete agreement.

The outlook for a successful continuance of the Irish negotiations was regarded somewhat improved here today because of suggestions regarding Ulster's possible share in the settlement and the prospect that Sir James Craig, the Ulster Premier, would take part in the discussion. The fact that Ulster members of the House of Commons have said nothing hostile in reference to the latest proposals was regarded as a good omen, but there was no definite indication as to the attitude that Sir James would take.

BELFAST, Nov. 4.—Sir James Craig, the Premier, who is about to leave for London for consultations over the question of an Irish settlement, presided over a meeting of the Ulster Cabinet held this morning. At this session John Milne Bourne, member of a Paterson, N. J., family, was installed as Finance Minister temporarily, owing to a breakdown in the health of the incumbent, Hugh McDowell Pollock.

BELFAST, Nov. 4. (Associated Press).—The Sinn Feiners who have been under internment in the Ballykinlar Camp have been unconditionally released.

LONDON, Nov. 4.—The Irish Conference is waiting upon the answer of Northeast Ulster to a proposal for a settlement laid before its leaders by the British delegates. This proposal is not represented by any of the elaborate schemes for settlement by introducing fresh complications into Irish Government which are rife in the papers here. The Sinn Fein delegates have tabled their scheme, and now tie up to Lloyd George and his colleagues to secure assent of Orange Ulster to it.

A change of front on Ulster's hitherto supposed inalienable right to dictate terms not only to the rest of Ire-

land but to Great Britain as well is the remarkable feature of the situation and the most significant.

Mr. Lloyd George's desire to go to Washington as early as possible would make for a rapid decision, but it is likely that Orangemen will accept the inevitable without struggle. They will put forward various counter-propositions which will form the subject for further discussion.

It is anticipated that settlement can not be reached without some further sittings of the whole conference. There may be minor modifications in the Sinn Fein proposals, but their central principle, that no settlement is possible except on the basis of unity of Ireland, will remain unalterable. The British delegation was aware of this fact before inviting Premier Craig to confer with them.

There will probably be another meeting of sub-conference on the truce today, but nothing of vital importance is likely to arise until the Orange position is developed by Premier Craig.

Lloyd George Tells King of the Irish Peace Situation.

LONDON, Nov. 4. (Associated Press).—The Prime Minister had an audience with the King at Buckingham Palace last evening. This was not due to developments in the Irish negotiations, but followed the customary practice that the Premier see the King on his return to London from Sandringham. It is believed, however, that Mr. Lloyd George reported to the King on the progress of the negotiations.

JUSTICE LEVY KEEPS HIS SEAT

Appellate Division Refuses to Re-
move Him on Charge He Is
Engaged in Business.

The Appellate Division of the Supreme Court today refused to remove Justice Aaron J. Levy from the bench of the Municipal Court, to which he was elected in the Second District in November, 1913, for a ten-year term.

Labor unionists charged that Justice Levy owned a controlling interest in H. Milgrim & Bros., Inc., a ladies' tailoring establishment, was financially interested in the motion picture business and also in the newspaper Warheit. Presiding Justice Clarke ruled that Justice Levy was not engaged in carrying on business within the meaning of the prohibitory statute applying to judicial officers, and said:

"My conclusion is that he should not be dismissed."

Justice Clarke and his associates also held there was no merit in the contention that Justice Levy should be removed for living outside of the Second District.

Ex-Police Detective To Drain the
Country's "Wet" Spots.

Detective Al Thomas, who for many years was connected with the staff assigned to the District Attorney's office and who during the war was with the Plant Protection Section of Military Intelligence in charge of the Boston Division has joined the staff of Prohibition Director E. C. Tellewley. Thomas was retired from the police several months ago. He joined the prohibition Enforcement Staff Oct. 1. He is one of 100 men Tellewley uses in his move around the country clearing up wet spots as they develop.

MASONS OF WORLD UNITE IN PLAN TO HEAL WAR WOUNDS

Justice Tompkins, Back From
Geneva, Tells of New
Federation.

Supreme Court Justice Arthur S. Tompkins, Deputy Grand Master of Masons in the State of New York, returned today on the Rotterdam, after attending the first international Masonic conference at Geneva, Switzerland.

"The purpose of the congress," he said, "was to organize a federation of the Masonic Grand Lodges of the world on a platform upon which all can unite without the surrender or compromise of any of the landmarks, traditions or ideals of ritual of any constituent member."

"This was accomplished at a four days' conference. An international Masonic federation was created for the purpose of solidifying the Masonic forces of the world and for co-operation and united effort in the cause of fraternity and brotherhood. It will be a mighty force for peace and for healing the wounds of the war."

"A permanent Secretary has been employed, who is under the control of a Board of Directors, and the Federation has taken over without cost the International Bureau of Masonic Affairs, which for nearly twenty years has been in operation."

"The conference will meet again in Brussels in 1924."

SPEEDING IN HAMBURG COST HIM 51 CENTS

Judge Imposed 100 Marks Fine on
American Captain.

Capt. A. E. Goodwin, who commanded a pontoon train in the A. E. F., has returned on the Orpita of the Royal Mail Line from revisiting France and Germany.

"My visit was frightfully saddened while I was in Hamburg," said Capt. Goodwin. "I was arrested for speeding and they took me to court, and the Judge said he had to make an example of these wild Americans. He talked just like a Brooklyn Judge with a Manhattan prisoner in front of him. And he fined me 100 marks. Yes, sir, a whole 100 marks. I almost burst into tears and paid him the equivalent of 21 cents, and told them they at least might send me home in a taxicab. And they did."

KING ENTERTAINS CUBANS.

George V. Exchanges Greetings
With Mission Headed by Menocal.

LONDON, Nov. 4.—The members of the Cuban Mission, headed by former President Menocal, were entertained by King George at a luncheon yesterday at Buckingham Palace. The Cubans were conveyed to the palace in royal carriages.

Before the luncheon the members of the mission were presented individually

to His Majesty. A message of greeting was handed to the King, who, in reply, welcomed the Cubans to the country and expressed hope that their stay in England would be pleasant.

Senior Menocal said the mission's visit was designed to return that of Sir Maurice de Bunsen, Under Secretary of the British Foreign Office to Cuba in 1918, and to assure the King of the extreme gratification the Cuban President and nation felt over the Allied victory in the late war. On behalf of the President and the Cuban people he expressed his sincere wishes for the happiness of the King and his family and for the prosperity of the British Empire.

ELECTRIC LIGHTHOUSE NOW.

NORFOLK, Va., Nov. 4.—Experiments at Cape Henry lighthouse to double its candle power by using electric instead of oil lights were carried out on Tuesday night under the direction of F. C. Hingburg, Assistant Superintendent of the Fifth Lighthouse District. The tests were not conclusive and will be continued.

The experiments contemplate the continued use of the Cape Henry light lens, which was manufactured in France in 1888. This was designed for the five-wick kerosene lamp in use at that time.

Anniversary Celebration

The Surprise Stores have been doing business in New York Twenty-two Years, and we are going to celebrate the occasion.

You have seen anniversary sales conducted by other stores, but not one like this. These stores have prospered in New York because of the generous and intelligent support they have received from the public—and it is no more than proper that on the twenty-second birthday The Surprise Stores do something to show their appreciation and keep their name in the minds of the people. Therefore, we have arranged a series of offers that we feel will show our gratitude to the citizens of this city.
